

NETWORK PARTNER PROGRAM

The California Association of Licensed Security Agencies, Guards and Associates (CALSAGA), established in 1994, is the only industry association in California dedicated to advocating on behalf of the security industry. Our advocacy is focused on the Legislature, the Bureau of Security & Investigative Services (BSIS), and other regulatory and governmental agencies. The association's goal is to ensure members' voices are heard at all levels.

CALSAGA is a 501 C (6) non-profit organization, financially supported by membership dues, generous partner organizations and income from our training programs, annual conference and other member service fees. In addition, CALSAGA is pleased to receive financial assistance from diverse supporters and donors including sponsors and Network Partners.
