

Response to COVID-19

As a member service organization, CALSAGA strives to serve our members and the industry to the best of our ability. In addition to the Member Benefits we normally provide, CALSAGA is proud that we have been able to support our members during this unprecedented time in the following ways.

Educational Webinars Series

CALSAGA has temporarily suspended the scheduling of our management training program Security University which is a two-day in-person event. Our next Registration is now open for **Security University Lite Webinar BSIS Compliance & Audits: It's Not Just the BSIS You Should Be Worried About – Hints to Avoid Getting Sued** will take place on Wednesday, February 17th at 10am.

Virtual Annual Conference

Each October CALSAGA hosts an Annual Conference. The 2020 conference was transitioned to a virtual event.

Attendees were very pleased to have live and on-demand access to great content as well as the Virtual Exhibit Hall.

Review the 2020 Virtual Annual Conference Recap.

Information and Resource Sharing

CALSAGA strives to disseminate information and access to resources always but especially during this time.

Expedited Guard Card Processing Assistance

In March BSIS Chief Lynne Andres agreed to work with CALSAGA to expedite the processing of new Guard Cards. From March 18 to May 31st CALSAGA submitted expedite requests for more than 100 officers to the BSIS on behalf of our members.

Free Masks

Due to our non-profit status and our support for essential services member companies and thanks to the California Office of Emergency Services, CALSAGA has acquired tens of thousands of disposable masks which we are able to distribute to our member companies. Our team shipped more than 150,000 masks to members.
